PROFESSIONAL SUMMARY

Full Stack Developer & Data Analyst with experience delivering scalable web applications and actionable business insights across internships in both engineering and analytics. Skilled in the **MERN stack, JWT-secured REST APIs, and real-time systems (Socket.io, Redux)**, alongside **SQL, Power BI, and Tableau** for data visualization. Comfortable owning end-to-end product delivery — from database design to responsive **React.js** dashboards — within **Agile** teams using **Git** and **Jira**.

TECHNICAL SKILLS

Frontend: React.js | HTML5 | CSS3 | JavaScript (ES6+) | Bootstrap | Tailwind CSS

Backend: Node.js | Express.js | REST APIs | Python | JWT | bcryptjs

Database: MongoDB | MySQL | SQL | Sequelize ORM

Tools & Development: Postman | Git | GitHub | Vercel | Netlify | Render | Power BI | Tableau | Excel | Jira

WORK EXPERIENCE

Full Stack Developer Intern

Nov 2025 – May 2026

ScaleFull Technologies | Pune, India

- Developed and deployed full stack web applications using React.js, Node.js, Express, and MongoDB, following MVC architecture, with responsive mobile-friendly interfaces built using Tailwind CSS.
- Designed and implemented RESTful APIs for CRUD operations integrating with MongoDB and MySQL databases, and collaborated with cross-functional teams using Git/GitHub and Jira for version control and agile project management.
- Integrated data visualization components into web dashboards using Chart.js and Power BI, reducing API response time by 30%.

Data Analyst Intern (Remote)

May 2024 – Nov 2024

Creative Tech Skills Institute | Pune, India

- Cleaned and standardized datasets of 50,000+ records by removing duplicates, handling missing values, and normalizing formats using advanced Excel functions and SQL.
- Built dynamic dashboards in Excel and Tableau visualizing KPIs across 3+ departments, providing actionable insights for data-driven decision-making.
- Analyzed 3+ years of historical stock market data across 200+ securities, identified investment trends, and presented findings to support strategy development.

PROJECTS

MedConnect — Full-Stack Doctor Appointment & Consultation Platform

- Built a full-stack MERN app supporting 3 user roles (Admin, Doctor, Patient) with JWT-secured REST APIs, role-based authentication, and UPI payment integration reducing booking time by ~40%.
- Implemented real-time chat for 50+ concurrent users using Socket.io, with online/offline status and message seen/unseen tracking achieving <100ms message delivery.
- Integrated a Google Gemini AI chatbot for instant patient support and FAQ resolution, accessible to logged-out visitors, while building a responsive React.js frontend with dark/light theme toggle and 10+ reusable components, cutting UI development time by ~30%.

Task Flow — Full Stack Task Manager

- Built a full-stack Task Management System using React.js, Node.js, Express.js, and MySQL (Sequelize ORM) with REST APIs, JWT authentication, and role-based access control.
- Implemented secure authentication with bcryptjs, JWT tokens, and Multer file uploads, with protected routes and admin/user role differentiation on frontend and backend.
- Designed a responsive React.js dashboard with Bootstrap, including dark/light theme, paginated tables with search & filter, and real-time stats using Axios and Chart.js.

EDUCATION AND CERTIFICATIONS

MERN Stack Development Certification | Wisdom Sprouts | 2025

Bachelor of Engineering | Savitribai Phule Pune University | 2023 | CGPA: 7.72
